

## Installing a Hebrew keyboard on a smartphone

The Israel Committee of Congregation Beth Shalom has compiled the following instructions for installing a Hebrew keyboard on one's iPhone or Android phone. This information will enable you to type messages in Hebrew on your smartphone. Feel free to send questions or comments to [Israel@bethshalomseattle.org](mailto:Israel@bethshalomseattle.org).

### iPhone:

#### Installing Hebrew:

1. Go to the **Settings** app.
2. Select **General**.
3. Select **Language & Region**.
4. Select **Other Languages....**
5. Search for Hebrew.
6. When prompted to "Change Language to Hebrew?", select **Keep English**.
7. As the keyboard is installed, you will see "Updating Languages...".
8. Select your preferred language order.

#### Switching languages:

When you are using the keyboard on the screen, press the globe icon in the lower left area of the screen. Then select **עברית**.

#### Uninstalling:

1. Go to the **Settings** app.
2. Select **General**.
3. Select **Language & Region**.
4. Select Edit in the top right corner.
5. Select the red circle to the left of **עברית**.
6. The **Delete** button will appear on the right. Select it.

## Android:

### Installing Hebrew:

1. Go to the **Settings** app.
2. In the group "System", choose the "Language and input" control.
3. Under the heading "Keyboards and input methods", choose "Samsung keyboard".
4. Under the heading "Input languages", choose "+ Select input languages".
5. Click the checkbox by **עברית** if it's installed.
6. If it's not in the list of installed languages, select **עברית** in the list below the languages with checkboxes.

### Switching languages:

When you are using the keyboard on the screen, swap left or right on the spacebar to change the language.

### Uninstalling:

1. Go to the **Settings** app.
2. In the group "System", choose the "Language and input" control.
3. Under the heading "Keyboards and input methods", choose "Samsung keyboard".
4. Under the heading "Input languages", choose "+ Select input languages".
5. Uncheck the checkbox by **עברית**.
